

CAMAS CREEK COOPERATIVE

WEED MANAGEMENT AREA

Camas County Weed Superintendent
P.O. Box 130 • Fairfield, ID 83327
Phone: (208) 764-3512

Weed Management Plan suggested criteria.

1. Owner of property
2. Where property is located. Range and Township or other identifying land marks such as 100 N. 300 West.
3. What kind of noxious weeds are there presently on the property? (This may be determined by a site evaluation with the County Weed Superintendent)
4. What approved method of weed control is the land-owner going to use to control noxious weeds now present. (Culture, mechanical, herbicide, manual, bio-control). Method chosen by landowner must keep noxious weeds from propagating seeds.
5. What measures will the land owner take to control these and other noxious weeds in the future.
6. Sign and dated by property owner and presented to County Weed Superintendent either in person or by mail for inspection if needed and/or for final approval.
7. A list of Idaho's noxious weeds and a copy of the Idaho noxious weed law is available upon request at the office of the Camas County Weed Superintendent.
